

IN THE SPECIFICATION:

The Examiner has objected to the specification due to the absence of section headings, the mention of specific claim numbers on pages 1 and 3, and the misspelling of the word through appearing on page 5, line 24, of the specification. Appropriate correction has been required. So many pages were required to be changed to provide section headings and to correct the specific errors pointed out by the Examiner in the specification, Applicants are exercising the option of filing a substitute specification, and affirmatively state that no new matter is being added. Indeed, only those specific changes required by the Examiner have been made to the substitute specification.
